MEMORANDUM FOR: [Redacted]
Director of Security, CIA

FROM : [Redacted]
Chairman

SUBJECT : Results of Security Review Task Force Studying the
Impact of the Moore and Boyce/Lee Cases

REFERENCE : Your Memorandum to the DCI, dated 23 June 1977,
Subject: Approval of Selected Recommendations of
the Report of the Security Review Task Force Studying
the Impact of the Moore and Boyce/Lee Cases

1. Reference memorandum was approved by the DCI for all internal CIA actions and was forwarded to the A/D/DCI/IC for appropriate Intelligence Community tasking. More detailed task force findings would be particularly helpful to other Community agencies in executing their industrial security programs.

2. It is requested that you provide a briefing to the Security Committee at our meeting on 7 September 1977 on the report of the Security Review Task Force which studied the impact of the Moore and Boyce/Lee cases. Such a briefing might enable the avoidance by other agencies of similar pitfalls and provide for a better understanding of selected recommendations associated with the report.
